

## Carrying Consoles, Hanging

for easy and efficient die change on the press bed  
 load per pair 5 to 30 kN

### Advantages

- Safe handling of heavy dies with ease
- Less downtime by easy and efficient die change
- High-quality, shock-resistant coating
- High load

### Application

Carrying consoles allow a safe, effort and time-saving change of heavy dies on the press bed.

### Description

The carrying consoles are hung in the hooks on the die changing side of the press. The hooks are supplied with the consoles. The consoles are used as a pair. Their size must be selected to suit the highest die weight.

The die is loaded onto the consoles using a crane or a forklift truck. The carrying rollers consist of high-strength hardened needle bearings. The end stop can be bypassed in one direction.

The surface is provided with a shock-resistant coating in RAL1004, golden yellow.

### Delivery

2 carrying consoles (pair)  
 1 set of hooks (4 off)

### Accessories

#### Hooks

Hanging consoles may be used for several presses. In this case, an additional set of hooks is required and can be ordered as an accessory or replacement (1 set = 4 off).

**Part no. 7 18350007**

### Hole pattern for hooks

### Customised carrying consoles

as e.g. sliding carrying consoles are available on request.

Hanging, sliding carrying consoles
